- ✓ PAYG WITHHOLDING
- ✓ LUXURY CAR TAX, FUEL TAX CREDITS, WINE
EQUALISATION TAX
- ✓ ATO INTEGRATION = ALL REGISTRATIONS
IN ONE FORM!

Companies

Trusts

SMSFs

ABN Registrations inline with ASIC

When ordering a company registration online with InterDocs, you have the option to also register the company's Australian Business Number (ABN), if required. All associate details are prefilled, saving you time normally spent re-keying information on Australian Business Register (ABR) website.

The ABN form also includes comprehensive help text to guide you through the application, much like registering directly on the ABR website.

Apply for ABN, GST, PAYGW in line with ASIC registration, all in the one form.

ABNs for SMSFs and Trusts coming soon...

Other Registrations

Within the ABN application, we can also apply for/register the following:

- Tax File Number (TFN)
- Goods and Services Tax (GST)
- Pay As You Go Withholding (PAYGW)
- Fringe Benefits Tax (FBT)
- Luxury Car Tax (LCT)
- Wine Equalisation Tax (WET)

How do we do it (the best)?

We have invested heavily in technology to provide the simplest, fastest ABN registrations! Once the company is registered with ASIC, we will submit your ABN and tax role applications through our integration with the ABR and ATO. We have had successful ABN registrations within 30 seconds of registering with ASIC!

Protecting your clients' information with Two Factor Authentication

As part of the ATO's new framework for software developers who use software to interact with the ATO, we have implemented two factor authentication (2FA) as an extra layer of security for ABN applications.

Your applications will be processed faster if you provide tax file numbers for the officeholders and shareholders, and by logging in with 2FA, you can ensure your clients' information is secure.
